# Pre-Filled. Ready to Lounge

With spring like technology, crushed foam creates a resistance to settling, you can enjoy the elasticity of the sofa for a long time without requiring a top-up. SoLuxe™ is a harmonious blend of crushed recycled foam & poly bead to create a 50/50 balanced filling solution.

1

## **Tensile Elastic Structure.**

Design simplicity can be complex. With our intricate internal elastic support, our loungers are soft but sturdy.

2

## **Lush Quilting**

Our quilted interior creates the gorgeous form that interior designers love.

3

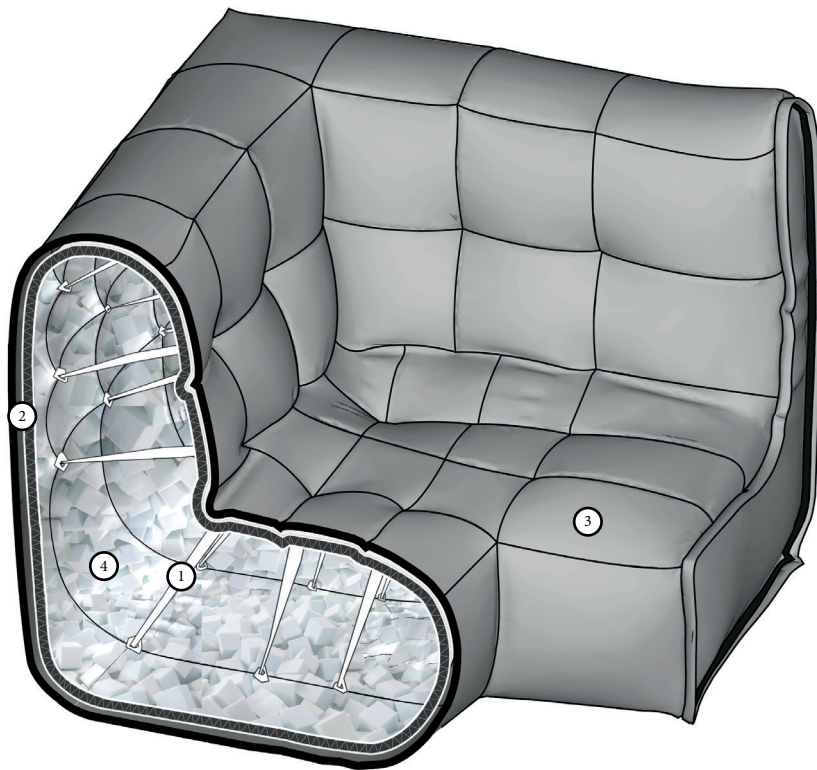

## **Premium Fabric.**

We make our furniture with tactile, complex fabrics designed for confidence & longevity.

4

## **SoLuxe™ Filling Centre.**

Combination of crushed recycled foam & high-density poly bead mix. Air pockets surround each area internally creating resistance to settling.

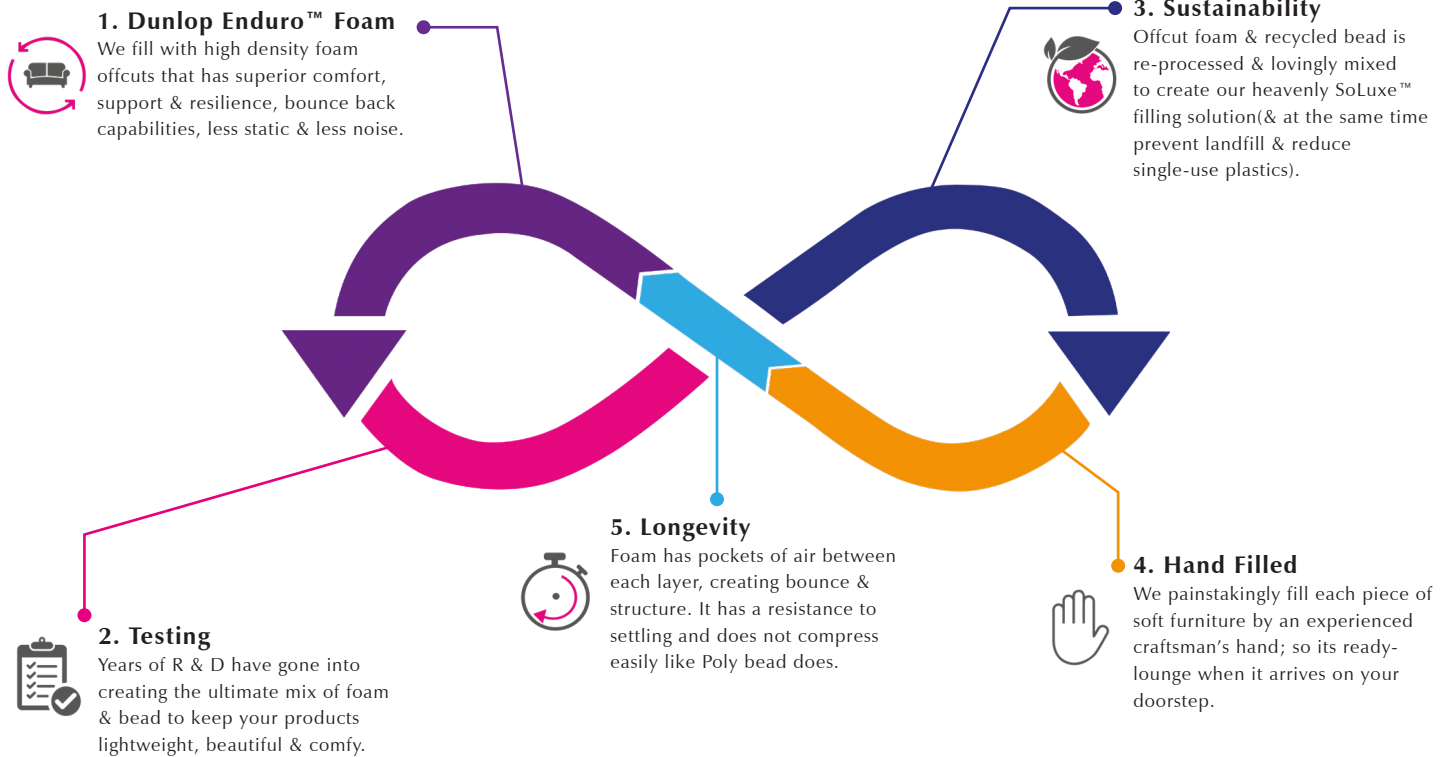

# SoLuxe™ Filling

Our brand new filling solution, see below the breakdown of what goes into creating our luxury crushed foam & bead mix. Keeping the soft tactile comfort for longer.

# beauty. balance. support

Premium filling your way, our two different filling options provide you with the flexibility to have the desired comfort and lounging experience.

## **UltraBead™ filling**

High density poly beads are 50% smaller & quieter, giving you a comfortable lightweight lounging experience.

## **SoLuxe™**

Unique blend of crushed recycled foam and poly bead filling improves the elasticity & durability.

# a revolution in designer furniture

With modern times comes great change. Western home lifestyles have evolved to integrate epic home cinema rooms, casual café living & beautiful sweeping outdoor spaces. Consequently, Ambient Lounge® have forged a new, highly relevant category of soft furniture. That has now slipped squarely into mainstream modern furniture tastes, for commercial use and home consumers alike.

Behold the pioneers of the designer bean bag for contemporary interiors and the great outdoors.

Ambient Lounge® is an Australian-designed brand of casual furniture with distribution in over 20 countries globally. These beautiful products are manufactured in Asia under stringent company-owned QC supervision to retain the highest quality standards, value and consistency.

Every detail counts. The fabric, packaging, presentation and comfort is nothing short of stunning. You only have to sit and sip a glass of wine in one of their Butterfly Sofas to understand just why interior designers and industry leaders are buzzing about the range.

Make the most of your ever-diminishing leisure times on a designer piece from the **Gold Class Collection**.

# gold class standards

Our revolutionary Gold Class Collection combines premium fabrics with Ambi-Spring™ internal elastic structures, thick quilted form seating, and special multi-bead compartments. All these design elements work together to keep the form and shape of your bean bag, while retaining the luxurious comfort of bead filling.

Conceptualised by our youthful team of designers, the complex system of internal elastic points is what make our Gold Class bean bags extraordinary. Individually hand-made, measured and manufactured with great precision, these elastics are meticulously designed to give our bean bags superb structure & back support, as well as stand-alone aesthetic beauty.

Every detail counts. Our fabrics, presentation, comfort and packaging, is nothing short of stunning. Make the most of your ever-diminishing leisure time on a piece from our Gold Class Collection.

projects

# exclusively yours

Spaces, events, textures, budgets & settings are all individual. Sometimes you just need something special or magical to light up your projects. It is the attention to detail that counts.

Led by in-house architects, Ambient Lounge's global interior design team is here to help. If your project has the scope - we've got the means. We make commercial-grade interior & outdoor furniture, and relish any exciting project challenge.

From Singapore's Changi Airport, England's FIFA World Cup 2018 Base, London's Winter Outdoor Cinema to Melbourne's Australian Open, we've done it all in style, to the thrill of our clients.

Ambient Lounge® offers free concept designs & 3D renders for medium-large scale projects. We can do custom shapes, virtual reality presentations, bespoke fabrics, technical specifications, samples & things you may not have thought possible. Just ask!

We're here to make your projects better, vibrant and the new talking point!

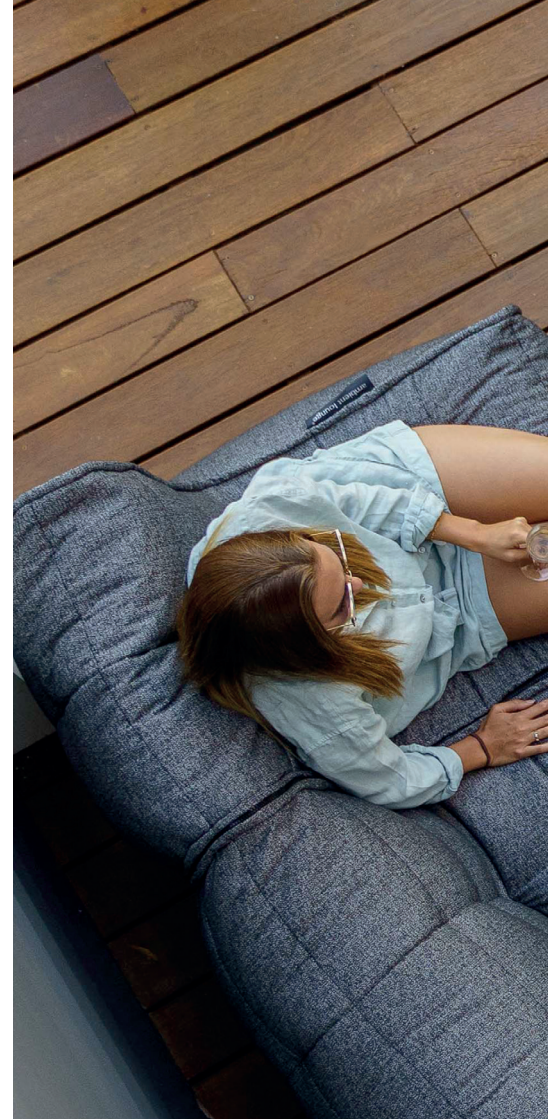

# fabrics & materials

Ambient Lounge's materials are carefully selected by leading interior and exterior design consultants to be in harmony with the new direction in homeware. Fabrics are chosen on their aesthetic beauty, tactility, function, durability & value, and are designed to work with the form of each sofa piece to compliment your contemporary & chic décor.

For simplicity of segmentation, we have divided the categories into **Interiors™** (for indoor) and waterproof **Elements™** (for outdoor/indoor) use.

**interiors™**

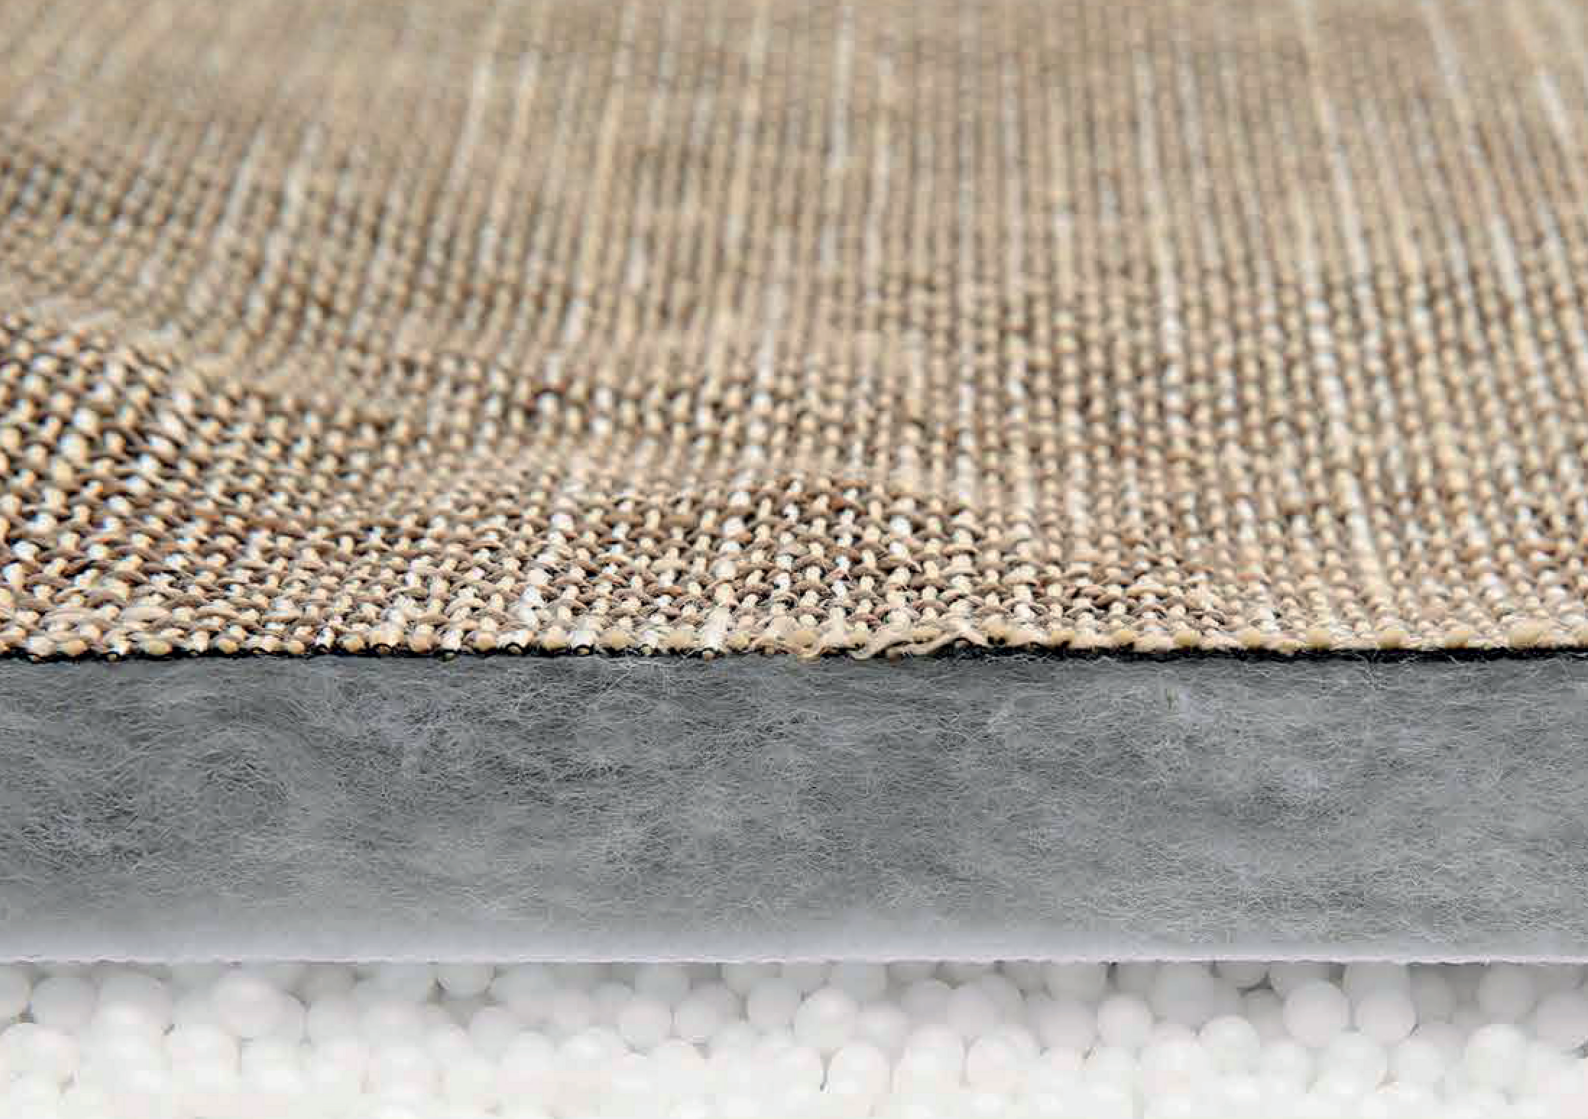

**elements™**

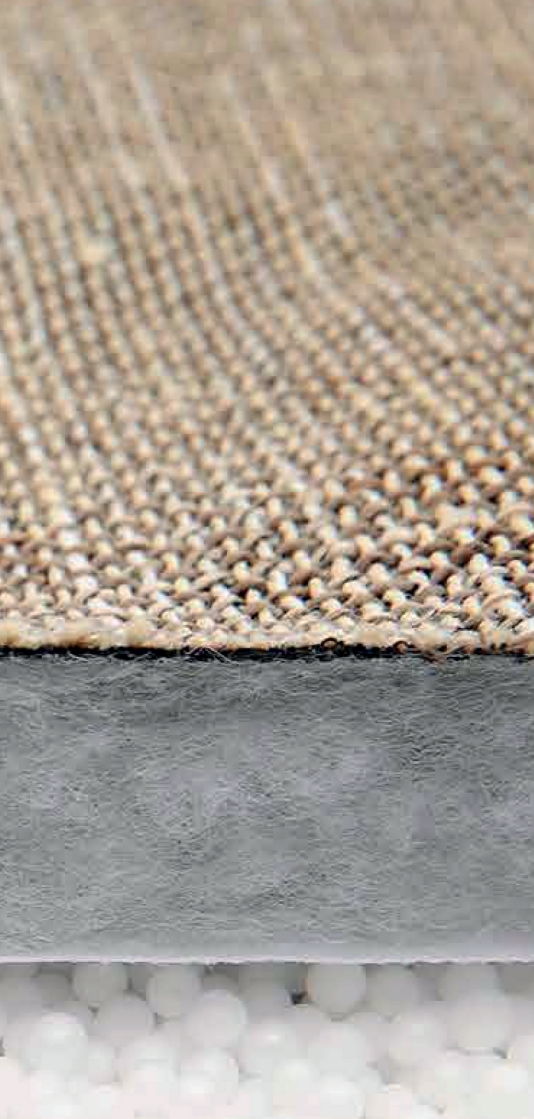

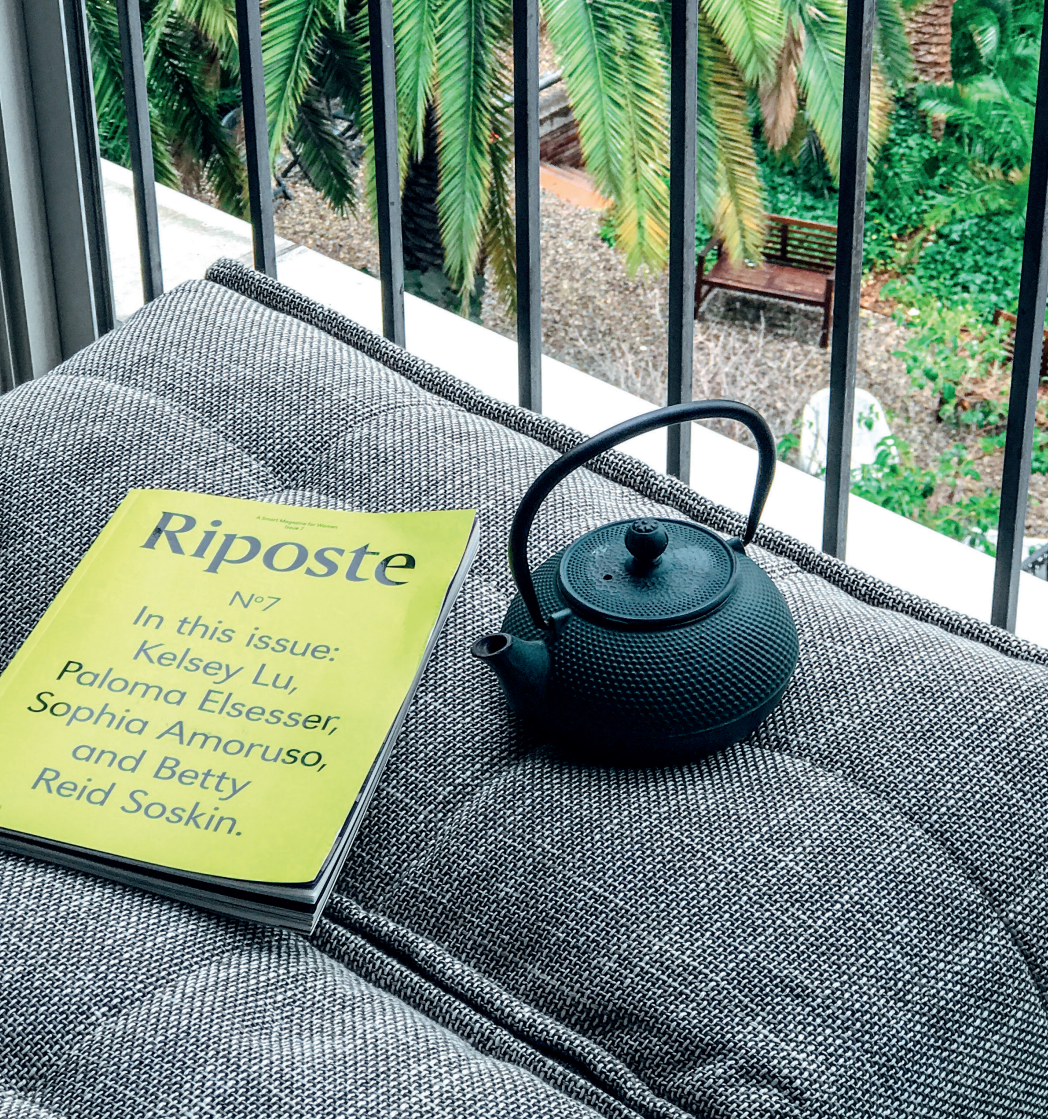

# quilty pleasure

Luxury waits beneath the surface. it's heavenly to sink into a thick cotton quilted layer & sensual ultra-SoLuxe™ centre. We dare you not to fall asleep in yours.

All Interiors™ products are manufactured with absolute premium quality sofa weave fabrics. these tactile, durable & beautiful materials are made for hard wear and contemporary lounge room living.
